

REMARKS

Applicant respectfully requests entrance of the amendments as detailed above in the above-referenced patent application.

Amendments to the Claims

Applicant respectfully submits that no new matter is presented with these amendments. Specifically, the present Amendment cancels claims 1-55 and adds claims 56-79. The newly added claims are fully supported by the specification and claims, as originally filed.

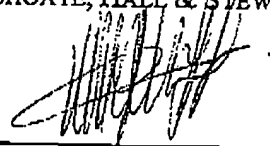

Specifically, claims 56-57 find support in original claims 46-47. Support for claims 58-61 can be found *inter alia* in Scheme 14 page 97 and paragraph [0115] on page 100 of the specification as originally filed. Claims 63-65 find support, for example, in paragraph [0114] page 100 of the specification. Claims 66-67 find support, for example, in paragraph [0112] page 99 of the specification. Support for claims 68-75 can be found, for example, in sections d)-j) on page 27 and sections d) and e) on page 28 pf the specification. Claims 76-77 find support, for example, in paragraph [0113] page 99 of the specification. Finally, claims 78-79 find support *inter alia* in sections xlv-a through xlv-a on pages 29-30 and sections xxxii-d through xxxiv-d on pages 66-68 of the specification.

No new matter is added by these amendments.

Applicant respectfully submits that the deletion of any claims and any other loss of claimed subject matter is being made solely to expedite prosecution of one aspect of the invention and is not meant to impact Applicant's right to pursue the cancelled claims or subject matter in Divisional, Continuation or related Applications. In fact, the cancelled claims are currently pending in parent Application Serial No.: 10/508,607 filed under 35 U.S.C. § 371 on September 22, 2004.

Applicant thanks the Examiner for entrance of the present Amendment and consideration of the above Remarks. Please charge any fees that may be associated with this matter, or credit any overpayments, to our Deposit Account No. 03-1721.

Respectfully submitted,
